PC Partner Received “Diamond Award” from Hardwareheaven.com
Reflects the International Recognition of its High Quality Products

PC Partner Group Limited’s newly launched product, GTX TITAN AMP!, has received the “Diamond Award” from Hardwareheaven.com, one of the biggest hardware sites in the UK. This honour reflects PC Partner’s leading position and the outstanding design capability. Moreover, it also reflects the international recognition of its high quality products within the computer electronics industry worldwide.

Riding on the ultimate gamers graphics card, the ZOTAC GeForce GTX TITAN AMP! enhances its quality to a new level with high resolutions graphics and higher average specifications than other graphics card in the market to meet different gamers’ demand. Powered by the immersive triple-display gaming capabilities of NVIDIA’s Surrounded technology, the ZOTAC GeForce GTX Titan AMP! Edition can drive up to three displays smoothly at the same time.

“We are pleased to receive this diamond award with industry recognition, which signified ZOTAC AMP! Edition is the highest clocked air cooled Titan. To ensure new products comply with relevant international standards, PC Partner has equipped with professional in-house product design validation capability.” said Mr. Wong Shik Ho Tony, Chairman and CEO of PC Partner.
