ZOTAC® kicks off CES 2012 with the new products

ZOTAC International, the brand of PC Partner, kicks off the 2012 Consumer Electronics Show with a trio of versatile 2nd Generation ZBOX mini-PCs for all the computer needs. At the same time, it also rolls out a USB 3.0 to HDMI adaptor, which enables users to easily add displays to desktop and notebook systems for increased productivity.

ZOTAC ZBOX ID 81 series mini-PCs pack the Intel® Celeron® Processor 857 while ZBOX ID80 series combine the latest energy-sipping Intel® Atom™ D2700 CedarTrail processor paired with NVIDIA® GeForce® GT530M graphics processing to form the ultimate energy-efficient home theater PC combination capable of stunning high-definition video playback. ZBOX AD04 series packs the latest AMD E-450 APU that combines dual-core CPU processing and AMD Radeon HD 6320 graphics processing that provide snappy system performance and responsiveness for everyday computing needs.

The 2nd Generation ZBOX platform enhancements include an external WiFi antenna, integrated Bluetooth 3.0 technology and a bundled Media Remote with USB IR receiver for the superior wireless reception. “The original ZOTAC® ZBOX series mini-PCs have been a major success since we debuted the line up nearly 2 years ago. We always take feedback from our users and customers seriously.” said Carsten Berger, Marketing Director, ZOTAC® International.

Meanwhile, ZOTAC®'s new USB 3.0 to HDMI adaptor which enables users easily add displays to desktop and notebook systems for increased productivity. It is powered by DisplayLink™ USB graphics technology which compresses visual data in real-time for maximum efficiency and a lag-free display output.

Mr Tong Wong, the CEO and Executive Director of PC Partner Group, said “The new products explore a new market for ZOTAC® and we will keep it on to have more innovation and creativity on our products”

PC Partner Group (1263) is a leading manufacturer of computer electronics which focus on the video graphics card, motherboards and mini-PCs manufacturing.
